CORDIS Partners Service

KEY ASPECTS OF THE NEWPROPOSED FACILITY

http://cordis.europa.eu/partners-service/home_en.html

Idea

Provide an efficient tool to:

- ◆ promote contacts between potential partners interested in participating in FP7 Projects
- ◆ enable potential partners to publish reliable and useful information
- ◆ help potential partners to present good quality project proposals in response to FP7 calls for proposals

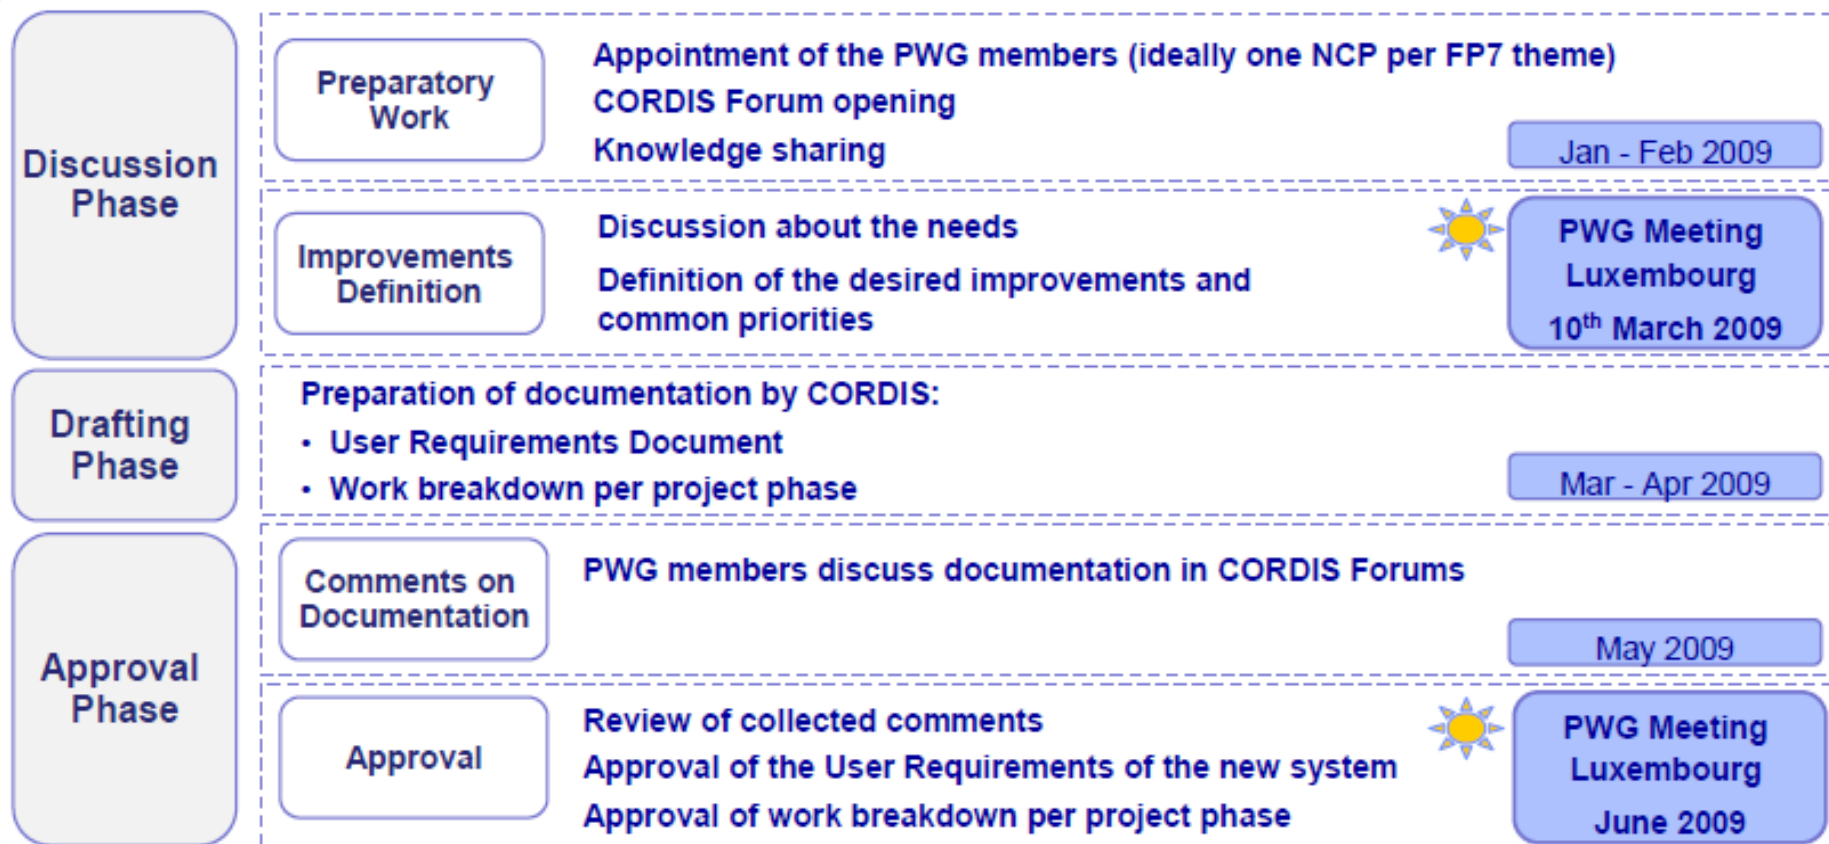

Partners Service

- ✓ **Why to create a Working Group?**
 - understand better the needs of NCPs and users
 - collect consistent requirements for the service
 - maximize the benefit obtained by the NCPs and users from the CORDIS Partners Service

- ✓ **Members of the Working Group**
 - Volunteer NCPs (at least one per FP7 theme)
 - CORDIS Users
 - CORDIS and Commission representatives

- ✓ **Mission**
 - share knowledge and experience
 - discuss and define the desired improvements
 - validate and contribute to the user requirements of the new system
 - test and comment on the prototype before launching

I PHASE: Definition of Users requirements

METHODOLOGY

[PWG PARTICIPANTS: *NCPs, CORDIS users, IT experts (Intrasoft), CORDIS staff*

1

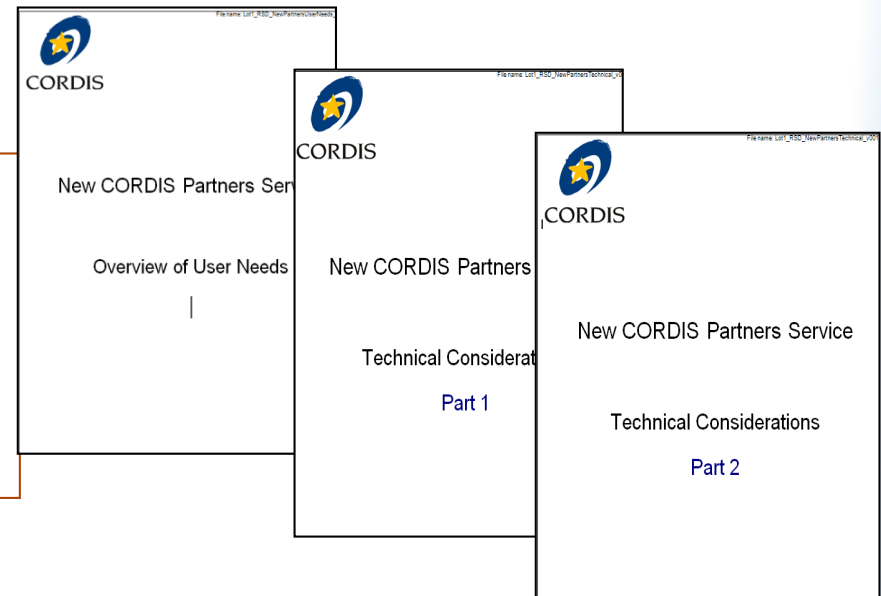

10.03.09 BRAINSTORMING SESSION

The participants discussed the same topic in several small (4 to 5 people) parallel groups and then worked together as a single plenary group to pool and prioritize the resulting observations, outcomes and ideas.

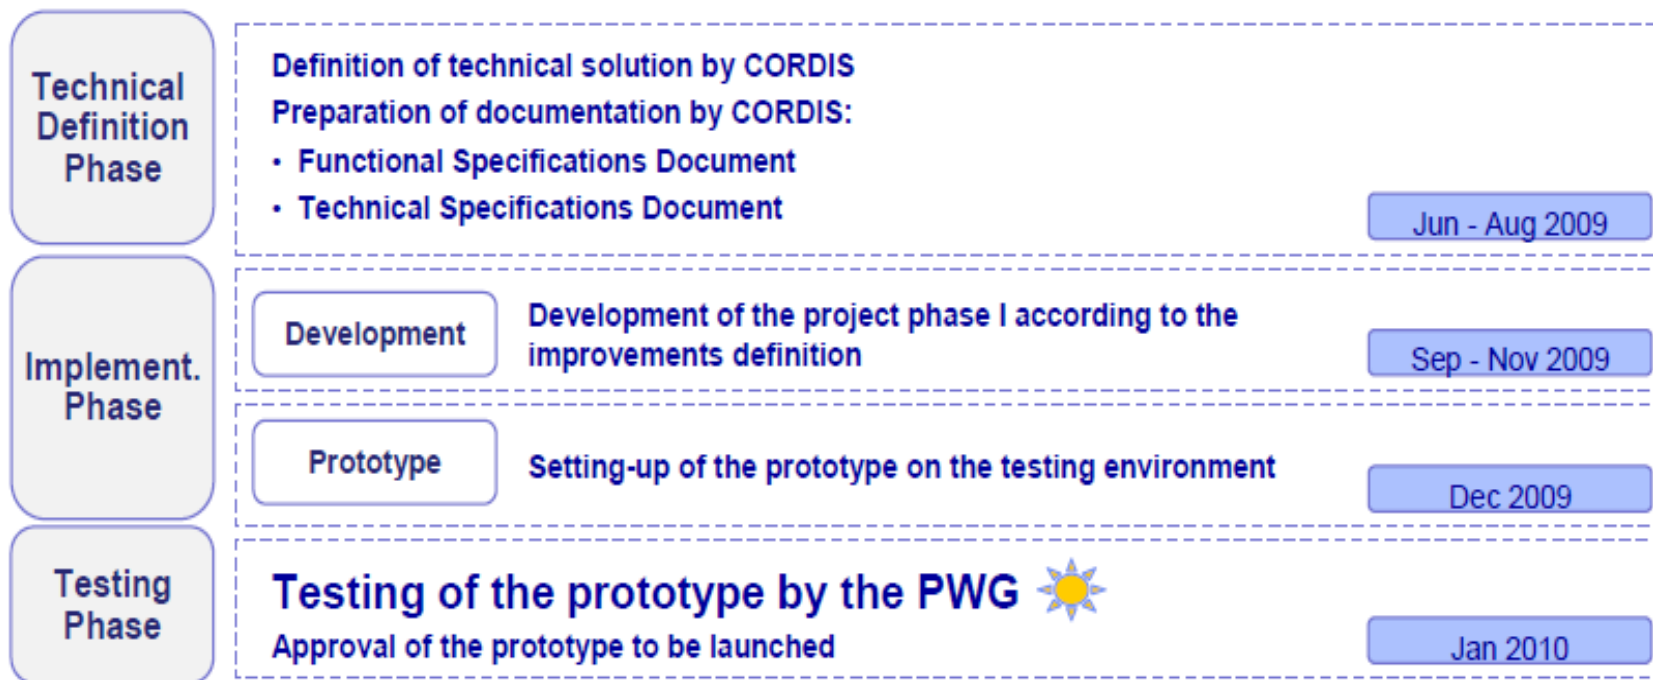

2

18.06.09 WORKING SESSION

Presentation of work progress as a consequence of the March meeting. Commenting and validating users requirements.

PHASE II: Implementation

Launch of the Service in February 2010

CORDIS Partner Service

Overview of the proposed new Service and the use requirement

- ❑ **General Overview**
- ❑ **Management Information:** joining the CORDIS partnership community; input, structure and management of information
- ❑ **Quality:** setting standards; information quality and validation
- ❑ **Search:** finding partners; searching for proposed project; information, sorting and profiling
- ❑ **Community:** interacting within the community; social activities, networking and communication
- ❑ **Reuse:** sharing information; connecting, extracting and reuse of information

General Overview

CORDIS Partners Service will create a

“closed community” for “participants” and “intermediaries”.

Characteristic:

- **CLOSED:** to all members registered providing a minimum set of information (everyone knows who is working with)
- **OPEN:** to any individual or organisation (provide minimum information)
- **NETWORK SUPPORT FACILITIES:** allowing participants and intermediaries to exchange information, interact with each other, share documents, create working group, generate partnership, build proposals.
- **PUBLIC SHOP-WINDOW:** attract new members to the community (provide access to information just to registered member).

 - providing useful information related to the specific Call,
 - role they intend to play on the project (project proposer, expertise offered, etc.)
- Calls related alerts
- Easy search by "Partners interested in this Call"

Creating a partnership proposal

The screenshot shows the European Commission CORDIS website interface. At the top, there is a navigation bar with the European Commission logo, the text "European Commission CORDIS", and links for "Print", "Legal Notice", "Search", "Contact", and a language selector set to "English (EN)". Below this is a secondary navigation bar with links for "Home", "News", "Funding", "Results", "Themes", "Go local", "Look it up", "Interact", and "Help".

The main content area is titled "Partners Service / Proposals" (highlighted with a red oval). On the left, there is a sidebar menu with options: "Marketplace", "Proposals" (highlighted), "Pick List", "Profile", and "Networks". Below the menu is a profile for "Frattoni Luigi", identified as "Head of materials study department, University of Pisa", with a "Logout" button.

The main content area displays a "Partnership proposal n° 30170-20090525-04". It includes several dropdown menus: "Research theme : Nanotechnologies", "Call : 123-456789-11", and "Type : Coordinator". Below these is a "Description :" field with a rich text editor toolbar. The toolbar contains icons for bold, italic, text color, background color, bulleted list, numbered list, quote, indent, outdent, link, unlink, print, undo, redo, and other editing functions. The description text is placeholder text: "Lorem ipsum dolor sit amet, consectetur adipiscing elit. Proin mi nulla, facilisis sed pellentesque sit amet, malesuada eget elit. Pellentesque tortor felis, aliquet et euismod vel, venenatis a odio. Suspendisse pharetra laoreet lacus eu lobortis. Praesent id est justo, id gravida felis. Suspendisse potenti. Sed accumsan sapien vitae lacus mollis sollicitudin. In hac habitasse platea dictumst.

Below the first paragraph is a second paragraph: "Nam aliquam velit vitae velit sollicitudin quis sodales lacus eleifend. Aliquam erat volutpat. Etiam mollis ante vitae risus adipiscing condimentum. Vivamus nec faucibus justo. In ultrices mollis ligula vitae sagittis. Mauris leo urna, eleifend id laoreet in, feugiat nec arcu. Cras dictum, lorem nec fringilla elementum, ligula ante vulputate ipsum, vel adipiscing tellus purus sit amet sapien. Etiam arcu ligula, commodo pulvinar dictum ut, accumsan vitae dui. Fusce risus dui, auctor id sollicitudin consectetur, imperdiet ut ligula. Suspendisse lorem nibh, vestibulum et auctor in, adipiscing sit amet justo. Cras tristique urna in justo elementum ultrices. Fusce adipiscing massa mauris. Sed vitae nunc diam, sit amet tristique felis. Sed gravida dictum porta. Donec a nisl in nunc adipiscing tempus eu sagittis turpis. Vestibulum porttitor libero at dolor viverra fermentum. Nulla eu sem ullamcorper tellus hendrerit ultricies."

At the top right of the main content area, there are navigation buttons: "PREV", "LIST", and "NEXT". Below these is a progress indicator with six numbered circles (1-6), where circle 2 is highlighted. A yellow tip box states: "TIP : Clicking PREV or NEXT will automatically save your work."

At the bottom right, there is a footer with links: "Top | Sitemap | A-Z Index | Glossary | FAQ | Help Desk | © CORDIS is managed by the Publications Office".

Quality (1)

Ensure the highest possible quality of information about individuals, organisations and partnership offers/requests.

- **Key information** (mandatory fields)
- **Partnership offer/request associated with a specific call**
- **Additional information (optional)**: e.g. CV, multi-media assets, link to “social networking” functions
- Link between profile(s) and relevant information stored **in other CORDIS location** (e.g. project database, results database, documents library, ect) or **external to CORDIS** (e.g. URF)
- **Quality technical verification of new profile before the publication** (errors, unclear information)
- **Profile “hibernation” / “deletion”**
- **Partnership offer/request “hibernation” / “deletion”**
- **Statistic** concerning activities related to partnership offer/request

Quality (2)

Verification and 'approval' of data by recognised 'agents'

The system should provide an option for
NCPs to check data and to add their 'seal of approval'

- possibility to verify and 'validate' data from their 'client' organisations ('rating system' giving a notion of the level of reliability of the information)
- 'expert' group/quality team of NCPs from every thematic area to quality-check profiles....but
 - **Time constraints**
 - **NCPs/experts commitment?**
- **Publication** by country NCP + QA Team
- **Quality Label:** in relationship to the "fit" between the partnership profile and the call/topic (**internal forum** for communication between NCPs concerning quality-checking and/or discussions concerning the profiles)

Search (1)

Simple word-search will be accessible from the home page of the Partner Service

“SIMPLE SEARCH BOX”:

- one or more search terms
- option to restrict the search (pre-filling)
- set of multiple (multiple selection in each category) pre-selection tick-box menus (organisation type, country/regions, theme, call)
- search results printable, sortable, savable, exportable or download (able)

Option to select an “AUTOMATIC MATCH-MAKER” function:

- The system compares the user’s requests with other individual or organisation profiles

Search (2)

Simple word-search will be accessible from the home page of the Partner Service

Easy navigation between items using search technologies, hyperlinks on criteria will launch new searches.

(for example: potencial partners interest in this call, potencial partners interest in this theme, other project proposals for this call, other project proposals in this Country).

Different views of the same information:

- **the partner view:** main information of the partner, which calls and projects the parnter has participated in
- **the call view:** wich potencial partner expressed interest

Community

Networking facilities

- **SHARING AND WORKING SPACES**
 - ◆ Project proposals, sharing documents, create documents together,...
 - ◆ Comment on the proposals of others
 - ◆ Express interest in a project
- **FORUMS**
 - ◆ Feedback on experiences...
- **INTER-PERSONAL MESSAGING SYSTEM**
- **CHAT**
- **WIKI**
 - ◆ E.g. guides on how to prepare good proposals, to communicate on EU-funding opportunities, etc.
- *These facilities could be enabled or disabled as desired*

Reuse of information

To allow users to link their profiles to other web resources (e.g. RSS inward feeds to assure a company profile is automatically updated).

To extract datasets for use outside the facility:

- **Bulk download of multiple datasets**
- **Printing of search result list**
- **Export of selected profiles into a “standard brochure”** (CORDIS will offer a standard layout with introductory texts, explanations that could be used directly)
- **Announce successful partnership** (e.g. research funding obtained) and/or success stories (e.g. long term economic benefits)
- **Open standards to facilitate the exchange of data with other system**
- **Reporting....**

Reuse of information

- **REPORTING**

- How many visitors for a profile (who?)
- How many partner searches for one specific call (how many project proposals?)
- How many thematic profiles
- The most requested expertise
- etc.
