rosa romanian space agency - agenţia spaţială română

# DECIZIE

Nr.81 din 27.05.2026

Având în vedere prevederile Art. 2 din Legea 380 din 2022 pentru aderarea României la Convenţia cu privire la înregistrarea obiectelor lansate în spaţiul extraatmosferic, adoptată la New York la 12 noiembrie 1974 şi deschisă spre semnare la New York la 14 ianuarie 1975, prevederile Convenţiei ONU din 14 ianuarie 1974 cu privire la înregistrarea obiectelor lansate în spaţiul extraatmosferic prezentată Anexa Legii 380 din 2022,

Directorul General al Agenţiei Spaţiale Române, numit prin Decizia A.N.C. nr. 20931 din 10.12.2025,

**DECIDE**

Art. 1 Se constituie Registrul naţional al obiectelor lansate în spaţiul extraatmosferic

Art. 2 Se informează Misiunea Permanentă a României pe lângă organizaţiile internaţionale de la Viena cu privire la înfiinţarea Registrului în vederea notificării Secretarului General al Naţiunilor Unite.

Art. 3 Directorul general repartizează persoanelor cu atribuţii în relaţii internaţionale solicitarea de înregistrare de la entitatea al cărei obiect a fost lansat în spaţiul extra-atmosferic, acestea solicită cu celeritate toate informaţiile necesare şi vor informa Misiunea Permanentă a României pe lângă organizaţiile internaţionale de la Viena în vederea notificării Secretarului General al Naţiunilor Unite.

Art. 4 Registrul va avea structura obligatorie din Anexa 1, conform Art. IV alin.1 din Convenţie. UNOOSA recomandă completarea formularului online din Anexa 2.

Art. 5. Compartimentul Resurse Umane, Protecţia Muncii, P.S.I. şi Serviciul Economico-Financiar şi Suport Administrativ vor duce la îndeplinire prezenta decizie.

Art. 6 Prezenta decizie îşi produce efectele de la data comunicării sale.

DIRECTOR GENERAL,

Daniel-Eugeniu CRUNTEANU

SEF SERVICIU ECONOMIC SI SUPORT ADMINISTRATIV,

Monica Florentina CALOPEREANU

Întocmit,

COMPARTIMENTUL RESURSE UMANE,

PROTECŢIA MUNCII, P.S.I.

Aurelia MITĂ

Annex 2

UNITED NATIONS REGISTER OF OBJECTS LAUNCHED INTO OUTER SPACE

# Registration Information Submission Form (as at 1 January 2010)

*Note*: This form is available from http://www.unoosa.org/oosa/SORegister/resources.html. Please see annex for instructions and definitions. Completed forms should be sent by hardcopy through Permanent Missions to UNOOSA and electronically to soregister@unoosa.org.

## Part A: Information provided in conformity with the Registration Convention or General Assembly resolution 1721 B (XVI)

| | | |
|---|---|---|
| **New registration of space object** | **Yes** ☐ | Check box |
| **Additional information for previously registered space object** (see below for reference sources) | **Submitted under the Convention: ST/SG/SER.E/** _____<br>**Submitted under resolution 1721B: A/AC.105/INF.** _____ | UN document number in which previous registration data was distributed to Member States |

### Launching State/States/International intergovernmental organization

| | | |
|---|---|---|
| **State of registry or international intergovernmental organization** | | Under the Registration Convention, only one State of registry can exist for a space object. Please see annex. |
| **Other launching States** (where applicable. Please see attached notes.) | | |

### Designator

| | | |
|---|---|---|
| **Name** | | |
| **COSPAR international designator** (see below for reference sources) | | |
| **National designator/registration number as used by State of registry** | | |

### Date and territory or location of launch

| | | |
|---|---|---|
| **Date of launch** (hours, minutes, seconds optional) | hrs min sec<br>dd/mm/yyyy | Coordinated Universal Time (UTC) |
| **Territory or location of launch** (see below for reference sources) | | |

### Basic orbital parameters

| | | |
|---|---|---|
| **Nodal period** | | minutes |
| **Inclination** | | degrees |
| **Apogee** | | kilometres |
| **Perigee** | | kilometres |

### General function

| | |
|---|---|
| **General function of space object** (if more space is required, please include text in a separate MSWord document) | |

### Change of status

| | | |
|---|---|---|
| **Date of decay/reentry/deorbit** (hours, minutes, seconds optional) | hrs min sec<br>dd/mm/yyyy | Coordinated Universal Time (UTC) |

V.09-87779 (E)

## Part B: Additional information for use in the United Nations Register of Objects Launched into Outer Space, as recommended in General Assembly resolution 62/101

| | | |
|---|---|---|
| **Change of status in operations** | | |
| **Date when space object is no longer functional** (hours, minutes, seconds optional) | dd/mm/yyyy hrs min sec | Coordinated Universal Time (UTC) |
| **Date when space object is moved to a disposal orbit** (hours, minutes, seconds optional) | dd/mm/yyyy hrs min sec | Coordinated Universal Time (UTC) |
| **Physical conditions when space object is moved to a disposal orbit** (see COPUOS Space Debris Mitigation Guidelines) | | |
| **Basic orbital parameters** | | |
| **Geostationary position** (where applicable, planned/actual) | | degrees East |
| **Additional information** | | |
| **Website:** | | |

## Part C: Information relating to the change of supervision of a space object, as recommended in General Assembly resolution 62/101

| | | |
|---|---|---|
| **Change of supervision of the space object** | | |
| **Date of change in supervision** (hours, minutes, seconds optional) | dd/mm/yyyy hrs min sec | Coordinated Universal Time (UTC) |
| **Identity of the new owner or operator** | | |
| **Change of orbital position** | | |
| **Previous orbital position** | | degrees East |
| **New orbital position** | | degrees East |
| **Change of function of the space object** | | |

## Part D: Additional voluntary information for use in the United Nations Register of Objects Launched into Outer Space

| | |
|---|---|
| **Basic information** | |
| **Space object owner or operator** | |
| **Launch vehicle** | |
| **Celestial body space object is orbiting** (if not Earth, please specify) | |
| **Other information** (information that the State of registry may wish to furnish to the United Nations) | |
| **Sources of information** | |
| **General Assembly resolution 62/101** | http://www.unoosa.org/oosa/SORegister/resources.html |
| **COPUOS Space Debris Mitigation Guidelines** | http://www.unoosa.org/oosa/SORegister/resources.html |
| **Texts of the Registration Convention and relevant resolutions** | http://www.unoosa.org/oosa/SORegister/resources.html |

# Annex

## Section A. Instructions for completing the form

1. Download the electronic version of the form from http://www.unoosa.org/oosa/SORegister/resources.html.
2. Reference sources and other resources for completion of the form are available from the above web-link.
3. Review definitions in Section B below and complete the form. If there are any queries, please e-mail soregister@unoosa.org.
4. The **completed hardcopy form** should be sent through official government channels to the relevant Permanent Mission to the United Nations (Vienna) to be formally transmitted to the United Nations.
5. The **completed electronic form** should be sent by the appropriate government entity to the United Nations Office for Outer Space Affairs using e-mail soregister@unoosa.org.

## Section B. Definition of terms

### Part A: Information provided in conformity with the Registration Convention or General Assembly resolution 1721B (XVI)

#### Launching State/States/international intergovernmental organization

**State of registry/international intergovernmental organization:** The State of registry is the launching State which carries the space object on its national registry of objects launched into outer space. The international intergovernmental organization is an organization which has declared its acceptance of the rights and obligations provided for in accordance with Article VII of the Registration Convention.

*Note*: In accordance with Article II of the Registration Convention, **only one State of registry can exist for a space object**. When more than one launching State exists, they should jointly determine which State should register the space object.

**Other Launching States:** As defined in the Registration Convention, "launching State" means:

(i) A State which launches or procures the launching of a space object;

(ii) A State from whose territory or facility a space object is launched.

#### Designator

**Name:** The common name/names used to identify the space object.

**COSPAR international designator:** Alphanumeric designator established by the Committee on Space Research (COSPAR) for space objects that successfully reach Earth orbit or beyond. The SPACEWARN Bulletin (available at http://nssdc.gsfc.nasa.gov/spacewarn) confirms the designators assigned by the World Warning Agency for Satellites on behalf of COSPAR. The designator can also be obtained from the Online Index of Objects Launched into Outer Space at http://www.unoosa.org/oosa/osoindex.html.

**National designator/ registration number:** Designator or registration number assigned to a space object by the State of registry.

#### Date and territory or location of launch

**Date of launch:** The date of launch of the space object using Coordinated Universal Time (UTC) (also referred to as Greenwich Mean Time (GMT)).

**Territory or location of launch:** The territory or location of the launch of the space object. For a table of global launch locations, see http://www.unoosa.org/oosa/SORegister/resources.html.

**Basic orbital parameters:** Basic data on the space object's orbit around the Earth or a celestial body such as the Sun, Moon, etc. If object is orbiting a body other than Earth, please specify. The parameters are:

**Nodal period:** Time taken by the space object to complete one revolution around the body it is orbiting.

**Inclination:** The angle relative to the equator of the Earth or celestial body the space object is orbiting. Measured counter-clockwise from the equator.

**Apogee:** The furthest distance in the space object's orbit from the surface of the body it is orbiting.

**Perigee:** The closest distance in the space object's orbit from the surface of the body it is orbiting.

| | |
|---|---|
| **General function:** | General information on the space object. Can include mission objectives, frequency plans, etc. If required, please attach text in a separate page. |
| **Change of Status:** | The date of the space object's decay, reentry, recovery, deorbit or landing. |

## Part B: Additional information for use in the United Nations Register of Objects Launched into Outer Space, as recommended in General Assembly resolution 62/101

### Change of status in operations

| | |
|---|---|
| **Date when space object is no longer functional:** | The date using Coordinated Universal Time (UTC) (also referred to as Greenwich Mean Time (GMT)) when the space object ceases to perform operational functions for the State of registry. |
| **Date when space object is moved to a disposal orbit:** | The date using Coordinated Universal Time (UTC) when the space object is moved into a disposal orbit. See COPUOS Space Debris Mitigation Guidelines for recommendations on disposal orbits, http://www.unoosa.org/oosa/SORegister/resources.html. |
| **Physical conditions when space object is moved to a disposal orbit:** | The physical conditions when the space object is moved into a disposal orbit. Conditions can include the change in orbit (e.g. +300 km above GSO), passivation of the space object and other measures as recommended in the COPUOS Space Debris Mitigation Guidelines. |

### Basic orbital parameters

| | |
|---|---|
| **Geostationary position:** | Applicable only to space objects in the geostationary orbit. Planned and/or actual location of space object in ± degrees East along the equator from the Greenwich meridian (e.g. for 10.5 degrees West, use -10.5 degrees East). |

### Additional Information

| | |
|---|---|
| **Website:** | Address on the World Wide Web for information on the space object/mission/operator. |

## Part C: Information relating to the change of supervision of a space object, as recommended in General Assembly resolution 62/101

### Change of supervision of the space object

| | |
|---|---|
| **Date of change in supervision:** | The date using Coordinated Universal Time (UTC) (also referred to as Greenwich Mean Time (GMT)) when the new owner or operator takes supervision of the space object. |
| **Identity of the new owner or operator:** | The identity of the new owner or operator of the space object. |

**Change of orbital position in the geostationary orbit**

| | |
|---|---|
| **Previous orbital position:** | The previous operational location of the space object in ± degrees East along the equator from the Greenwich meridian. |
| **New orbital position:** | The new operational location of the space object in ± degrees East along the equator from the Greenwich meridian. |
| **Change of function of the space object:** | The function of the space object following change in supervision. |

## Part D: Additional voluntary information for use in the United Nations Register of Objects Launched into Outer Space

### Basic information

| | |
|---|---|
| **Space object owner or operator:** | The entity that owns or operates the space object. |
| **Launch vehicle:** | The launch vehicle used to launch the space object into Earth orbit or beyond. |
| **Celestial body space object is orbiting:** | The body that the space object is in orbit around, if not Earth (i.e. the Moon, the Sun, Mars, Jupiter, etc.). |
| **Other information:** | Information relating to the space object that the State of registry may wish to furnish to the United Nations. |
